CONTACT EWS

HOW TO SIGN UP TO EWS?

1. Click [this link](#)
2. Fill out the registration form **with the exact same information** from your Enagic records (it needs to match)
3. Click **Validate** button
4. Select how to **validate** your account:
 - Send via email
 - Send via SMS/text
 - Send via phone call

This step helps us to validate that you own the email or phone number associated with your Distributor ID

REGISTER

To create your account, please first validate your distributor number. This info must match exactly what Enagic has on file for your ID number.

If you need assistance, see these [instructions](#). You may contact **Enagic Support** through the Live Chat below, or call +1 866-261-9500.

Select the branch for this ID ▼

HOW TO USE THE WEBSITE MANAGER

1. It's important to note that the websites become available if the user is on one of our paid plans.
2. Each paid plan will give you a certain amount of add-ons

FOR EXAMPLE

1 website or 1 language count each as 1 add-on.

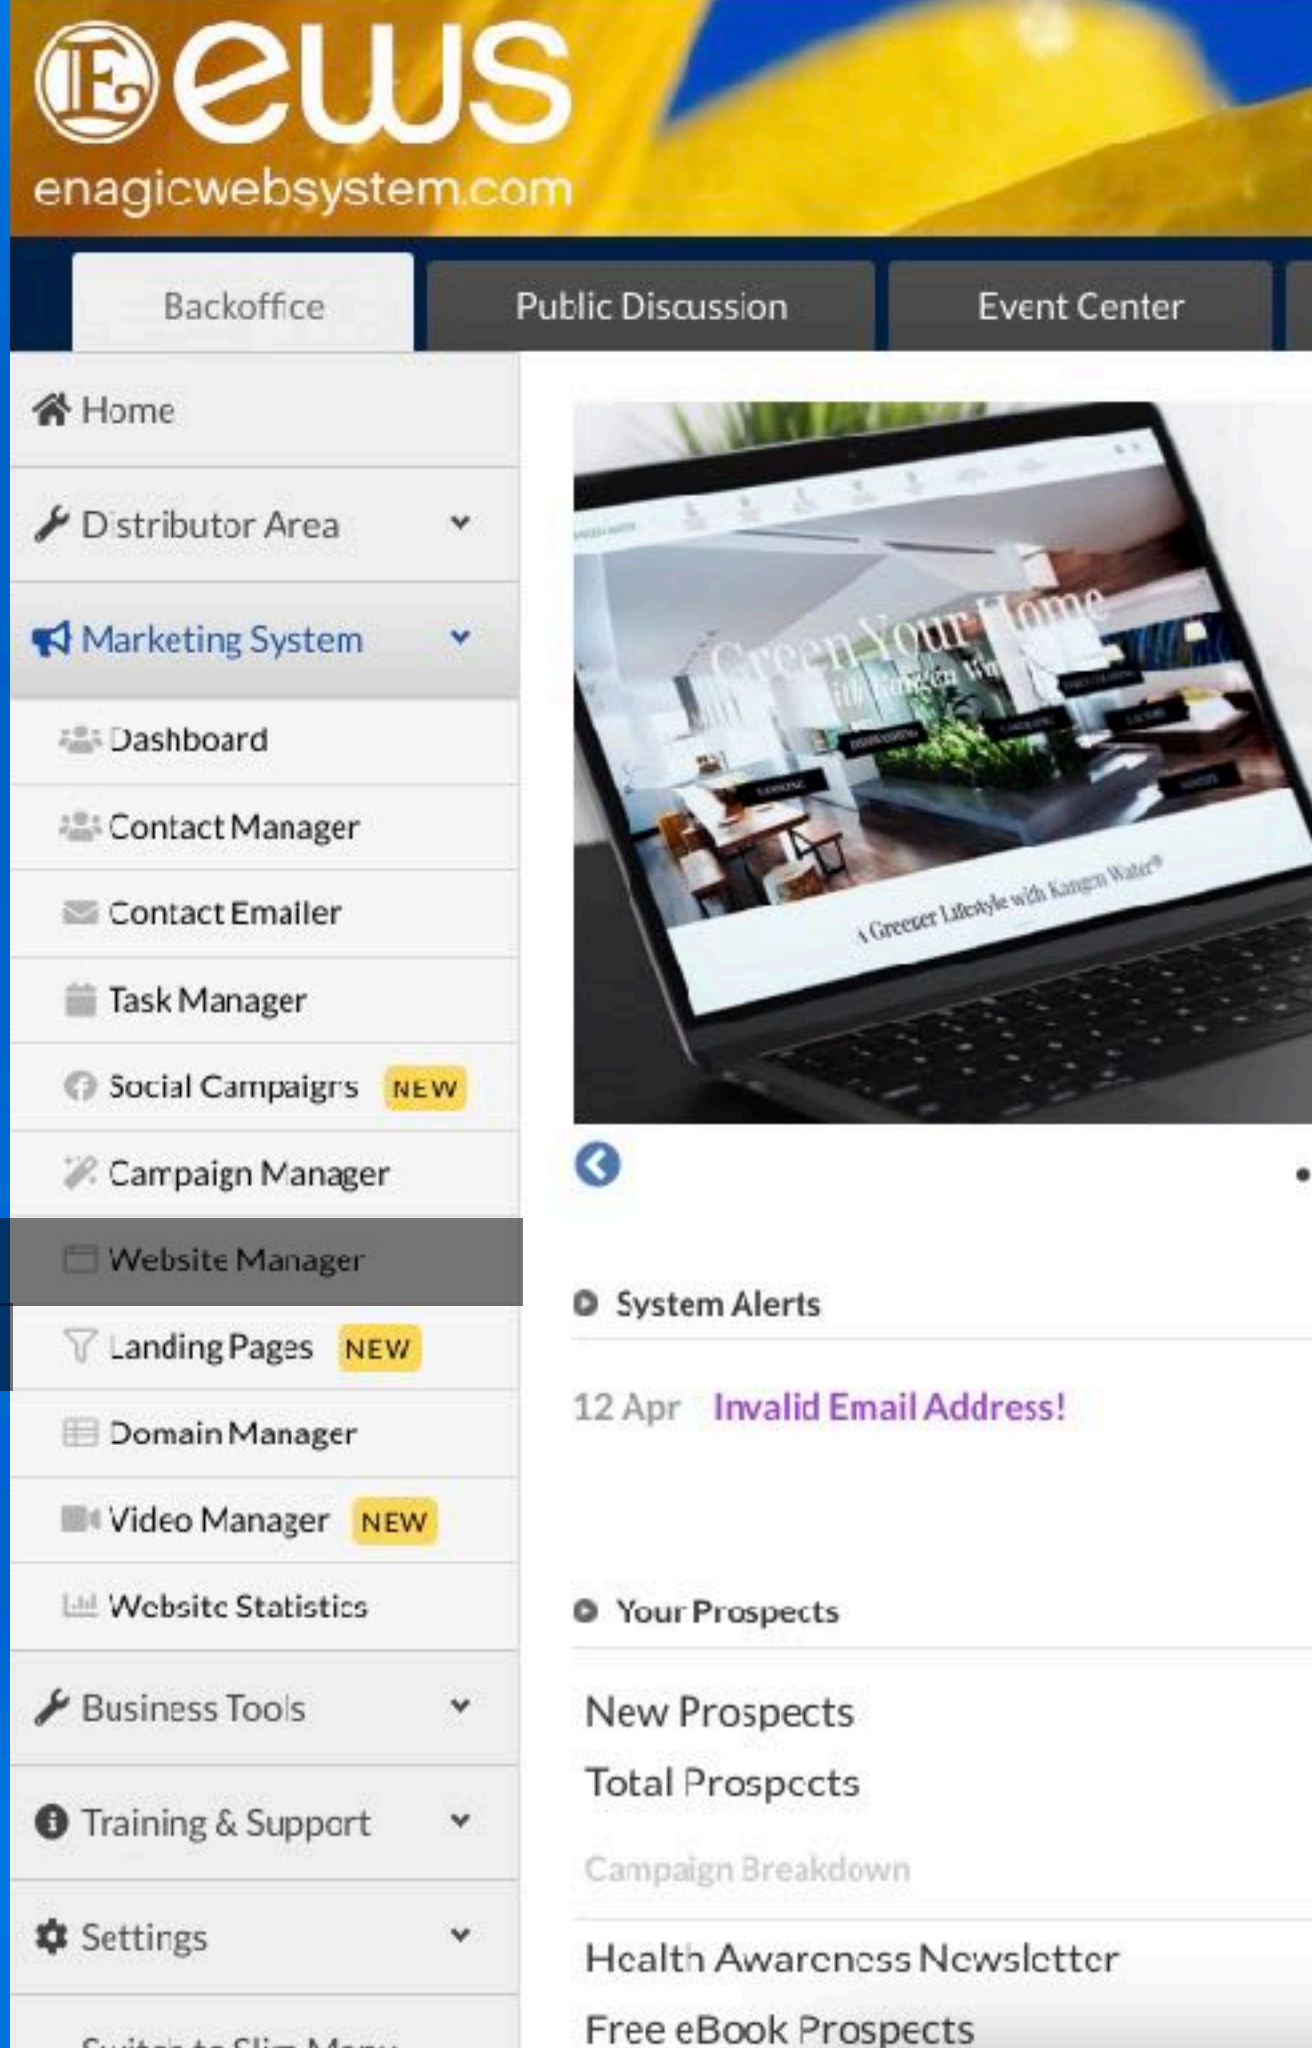

DISTRIBUTOR	POPULAR
\$75.00/MO (PAID MONTHLY)	
Distributor Area	
5 Add-ons of Choice ?	
2,500 contacts ?	
Unlimited Sending	
Contact Manager	
Contact Email	

ER	BEST VALUE
/MO (PAID MONTHLY)	
Area	
d-ons ?	
acts ?	
ending	

HOW TO USE THE WEBSITE MANAGER

ADDING A WEBSITE

1. Log into your EWS Backoffice
2. Click on the **Website Manager** tab on the left side menu

HOW TO USE DOMAIN MANAGER

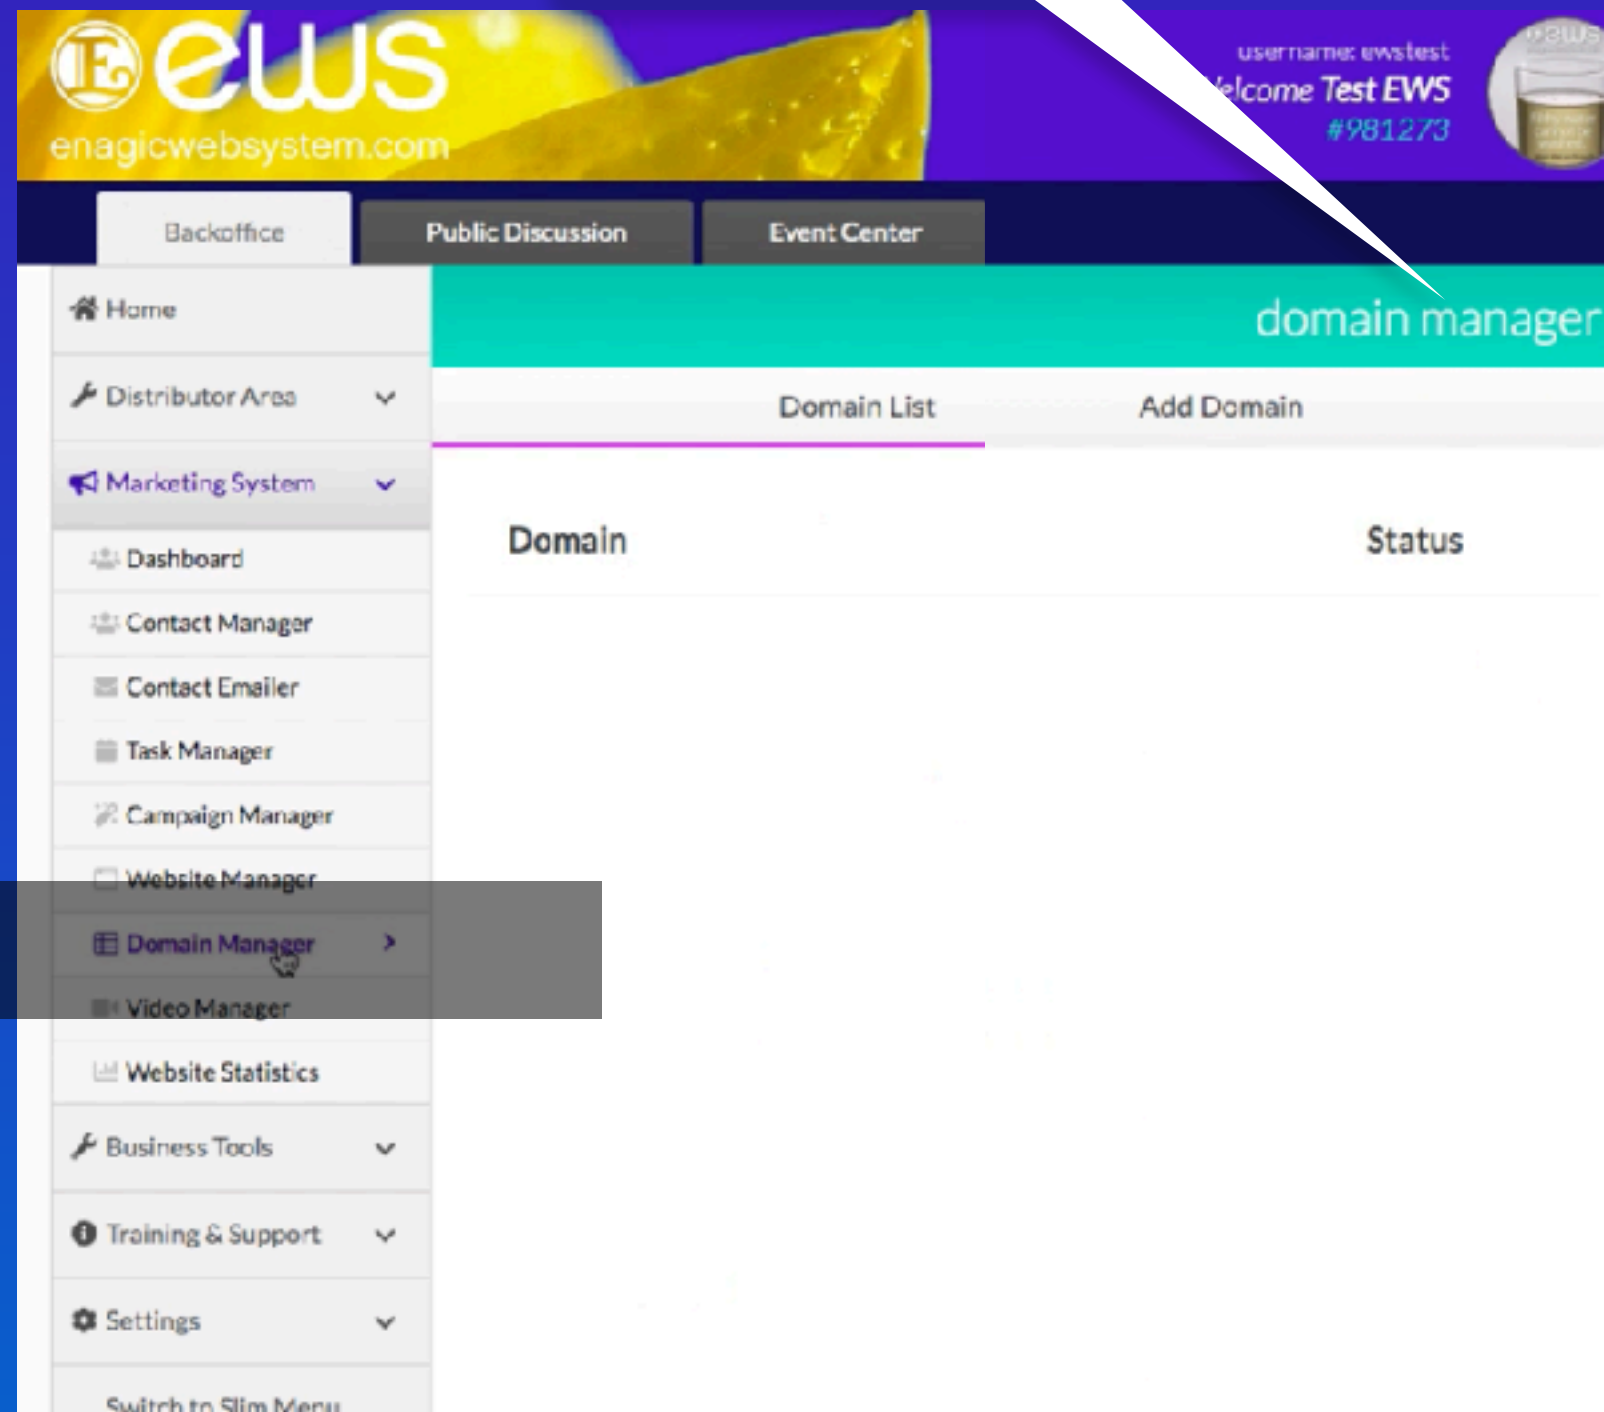

ASSIGN A CUSTOM DOMAIN TO YOUR WEBSITES

1. After you finished adding your website.
2. You can click [this link](#) to see a short video on how to assign a custom domain to any of your websites or follow this simple steps.

Navigate to **Domain Manager**

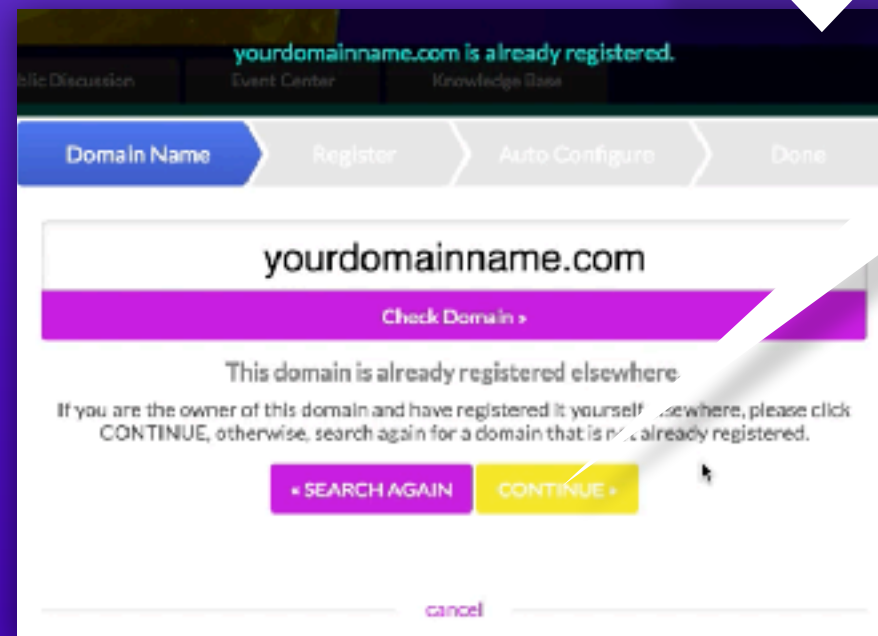

Left side panel and
click on **Add Domain**

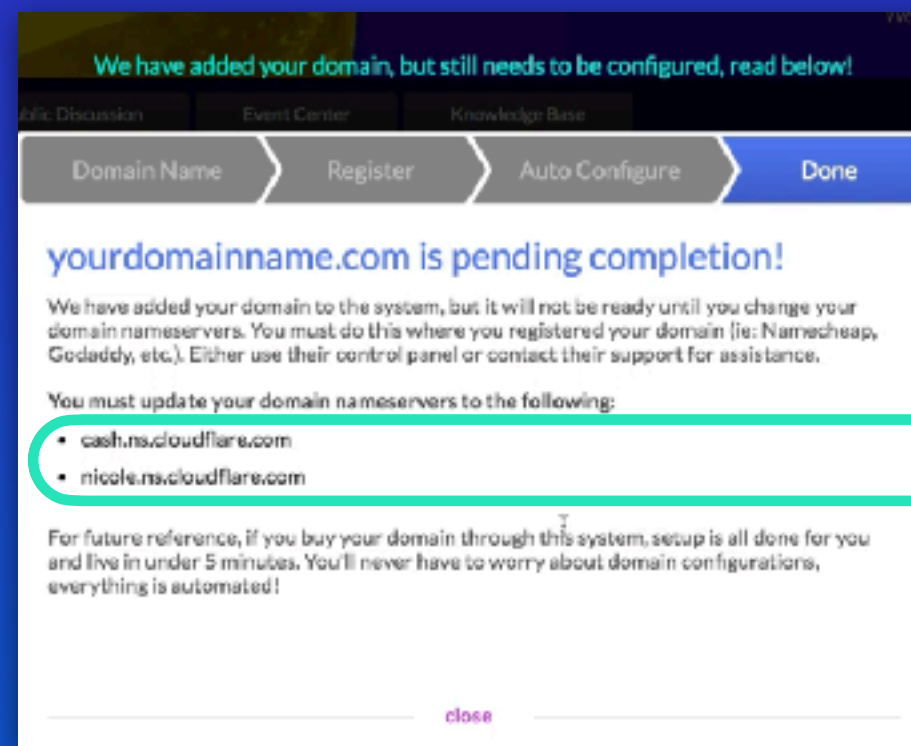

IF YOU ALREADY OWN A DOMAIN

The system will detect and let you know **like below**

Click Continue

You will then get a message saying we've added the domain but it still needs to be configured.

This means changing the name servers for ours. If you now how to do this on your won, go ahead. If you don't, you can contact our support team and we will help you.

You can click the Close button

Domain Name Register Auto Configure Done

Buy jeffkangenwater.com

USD \$13.66 / yr.

Registering your domain through EnagicWebSystem.com is the easiest way to get it setup and live within minutes! You will still own the domain and can cancel or transfer the domain at any time. Please be sure there are no typos in your domain. Unfortunately, we cannot refund domain registrations!

Namecheap Registration Agreement

☒ I agree to the Namecheap Registration Agreement

☒ I agree to automatically renew this domain every year until cancelled

☒ I understand there are no refunds on domain registration

Total \$13.66

Buy domain with card ending []

cancel

If want to proceed to buy it, check these 3 boxes

The system will let you know how much does the **domains costs**

The system will use the credit card on file to make the purchase

Click Buy Domain button

AFTER YOU
COMPLETE YOUR
DOMAIN ORDER

The screenshot shows a web application interface for a 'domain manager'. At the top, there are tabs for 'Backoffice', 'Public Discussion', 'Event Center', and 'Knowledge Base'. Below these is a teal header bar with the text 'domain manager'. The main content area is divided into two sections: 'Domain List' and 'Add Domain'. The 'Domain List' section contains a table with the following data:

Domain	Website	Status
www.yourdomainname.com	NONE	
www.yourdomainname.com	NONE	

The second row of the table is highlighted in blue. Below the table, there is a detailed view of the selected domain. It includes a thumbnail image of a website, a list of website options (e.g., [E2] Complete Overview, [E5] Kangen Opportunity, [E6] Go Green With Kangen, [KANGENDEMO] Demonstration Site, [TeamSite] Enagic Team Site, [UKON] Kangen Ukon Supplements), and a 'NO WEBSITE' option. There are also buttons for 'Save Changes?' and 'Cancel Changes'. A note on the right states: 'Domain is disabled because it has no website associated with it.' At the bottom right, there is a section titled 'Independently Registered' with the text: 'This domain was registered elsewhere then configured to work with EWS.'

The system will show **your new domain** on the Domain List and will auto-configure with our name servers

As before, you just need to assign the domain to one of your **websites**
